Jacob Burns Film Center  
$1,750,000  
The Film Center, located in Pleasantville, NY, is a leading national educational and cultural institution. The Center, through its Media Arts Lab provides opportunities for people of all ages to discover, explore, and learn through the power of film and media. The Film Center was awarded grants to support their virtual learning platform, organizational stability, and strategic investments. The virtual learning platform will be interactive, resource rich, and will provide tools for filmmaking collaboration and production while leveraging their unique position as both film presenters and educators. The platform is being created as a sustainable business model with both common source resources as well as a revenue generating element.

Institute for Integrative Health  
$1,700,000  
The Institute, located in Baltimore, MD, run by Dr. Brian Berman, M.D., is committed to building the evidence base for integrative medicine advancing the science with new research methods, and mentoring the leaders of today and tomorrow. Their vision is to optimize health and well-being and shift the healthcare system from its dominant focus on managing disease to a focus on promoting health across the lifespan. Through its leadership, advisors, and the support of a network of Scholars working in their home institutions, the Institute pursues frontier investigations, bringing integrative approaches to organizations and disciplines, and mentoring the next generation of leaders, scholars, and students. After an extensive search, the new home for the Institute has been secured on Fleet Street in Baltimore - the “Broom Corn Building”. The new building is strategically located near the University of Maryland medical and professional schools campus, Johns Hopkins medical and school of public health campuses, and Mercy, Bay View, and Harbor hospitals. From this vantage point, they are well placed for nurturing strategic partnerships and serving a diverse local community. During this grant period, their forums placed high value on bridging research and application in integrative health, in particular, wounded veterans and minority populations; the Institute Scholars grew in number from six to eight. The Institute supports not only scholarly inspiration and research, but also the well-planned translation into real-world effort-community engagement and collaborative models to enhance health and well-being. This grant was awarded to support their working capital needs.
University of Maryland Baltimore, School of Medicine Center for Integrative Medicine
$1,180,000

The Center for Integrative Medicine (CIM) is an inter-departmental center within the University of Maryland School of Medicine. A leading international center for research, patient care, education and training in integrative medicine, the CIM is a National Institute of Health (NIH) Center of Excellence for research in complementary medicine, emphasizing an approach to healing that values mind, body, and spirit. This grant was awarded as general program support for their four-part program of informatics, research, education, and patient care. As a result of their new academic offices on the downtown campus, they have not only continued to strengthen prior research collaborations, but have also created new alliances and partnerships with a broader range of organizations. Cultivating better relationships and opportunities to present integrative techniques to their fellow medical school colleagues, they are developing solid projects that look at aspects of wellness and prevention, as well as continuing their focus on the practical uses of acupuncture and mind/body medicine and how and why they work.

The Center for Integrative Medicine celebrated its 20th Anniversary with a Ribbon Cutting Ceremony for their new downtown Baltimore offices.

A new branding look for the Center for Integrative Medicine featured on the cover of their new brochure.

The Center for Integrative Medicine's 20th Anniversary and Ribbon Cutting Ceremony, US Senator Mikulski spoke about the great work the Center has been doing, both nationally and internationally.
Moyers on Democracy
$1,122,000

Bill Moyers has returned to television with Moyers & Company, a weekly PBS series aimed at helping viewers make sense of our tumultuous times through the insight of America’s strongest progressive thinkers. Airing on public television and radio stations across the country, the series continues Moyers’ long-running conversation with the American public by offering a forum to poets, writers, artists, journalists, scientists, philosophers, and leading scholars. It also features Moyers’ hallmark essays on democracy. BillMoyers.com is a new digital destination providing access to Bill Moyers’ work in broadcast journalism that offers full streaming video and podcasts of Moyers & Company, online-only messages, analytical blogs, interactive features, as well as an extensive video library of Moyers past work. BillMoyers.com, combined with dedicated platforms on Facebook and Twitter, allows people to participate in the conversation of democracy. Multi-year funding has been awarded to support the Moyers on Democracy series.

Compassion & Choices
$1,000,000

Compassion and Choices, located in Denver, CO, works to improve end-of-life care and choices to the dying through education, advocacy, support services, and development of Clinical Practice Guidelines. This grant was awarded to advance their efforts to create a more informed community about their options for end of life care.
